

**NATURAL SCIENCES AND ENGINEERING RESEARCH COUNCIL**

**FINANCIAL STATEMENTS**

For the year ended March 31, 2014

## **Statement of Management Responsibility Including Internal Control Over Financial Reporting**

Responsibility for the integrity and objectivity of the accompanying financial statements for the year ended March 31, 2014 and all information contained in these statements rests with the management of the Natural Sciences and Engineering Research Council (NSERC). These financial statements have been prepared by management using the Government of Canada's (the Government) accounting policies, which are based on Canadian public sector accounting standards.

Management is responsible for the integrity and objectivity of the information in these financial statements. Some of the information in the financial statements is based on management's best estimates and judgment, with due consideration given to materiality. To fulfill its accounting and reporting responsibilities, management maintains a set of accounts that provides a centralized record of NSERC's financial transactions. Financial information submitted in the preparation of the Public Accounts of Canada, and included in NSERC's *Departmental Performance Report*, is consistent with these financial statements.

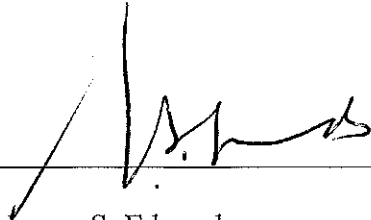

Management is also responsible for maintaining an effective system of internal control over financial reporting (ICFR) designed to provide reasonable assurance that financial information is reliable, that assets are safeguarded and that transactions are properly authorized and recorded in accordance with the *Financial Administration Act* and other applicable legislation, regulations, authorities and policies.

Management seeks to ensure the objectivity and integrity of data in its financial statements through careful selection, training, and development of qualified staff; through organizational arrangements that provide appropriate divisions of responsibility; through communication programs aimed at ensuring that regulations, policies, standards, and managerial authorities are understood throughout NSERC; and through the conducting of an annual risk-based assessment of the effectiveness of the ICFR system.

The ICFR system is designed to mitigate risks to a reasonable level based on an ongoing process to identify key risks, to assess the effectiveness of associated key controls, and to make any necessary adjustments.

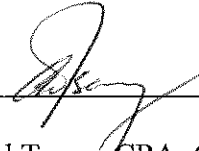

A risk-based assessment of the ICFR system for the year ended March 31, 2014 was completed in accordance with the Treasury Board *Policy on Internal Control*. The results and action plans are summarized in the annex.

Deloitte LLP, NSERC's independent auditors, have expressed an opinion on the fair presentation of the financial statements of NSERC that does not include an audit opinion on the annual assessment of the effectiveness of NSERC's internal controls over financial reporting.

# NATURAL SCIENCES AND ENGINEERING RESEARCH COUNCIL

## NOTES TO THE FINANCIAL STATEMENTS

**For the Year Ended March 31**

### **1. Authority and Objectives**

The Natural Sciences and Engineering Research Council (NSERC) was established in 1978 by the *Natural Sciences and Engineering Research Council Act*, and is a departmental corporation named in Schedule II to the *Financial Administration Act*. NSERC's purpose is to help make Canada a country of discoverers and innovators for the benefit of all Canadians, by supporting students, postdoctoral fellows, university professors and university-industry research partnerships. NSERC's grants, scholarships and operating expenditures are funded by budgetary lapsing authorities. Employee benefits are funded by statutory authorities. NSERC delivers its objectives under three programs:

#### a) Discovery

This program supports the creation of new knowledge and maintenance of a high quality Canadian-based research capacity in natural sciences and engineering through grants to researchers. The advancement of knowledge generated by these grants is necessary to fuel a strong research and innovation system in Canada that is globally competitive. Academic researchers receive funding to support the timely acceleration of research programs, the purchase or development of research equipment, or the facilitation of effective access to major and unique research resources.

#### b) Innovation

This program fosters partnerships in natural sciences and engineering that facilitates the transfer of knowledge and skills to the user sector through awards that support research projects and network activities intended for socioeconomic impact. The partnerships encouraged and enabled by these awards also increase the commercialization of Canada's research through new products, services and processes for the benefit of all Canadians.

#### c) People

This program supports the attraction, retention and development of highly qualified people in natural sciences and engineering in Canada through Chairs programs, fellowships, scholarships and stipends. These activities are essential to building the human capital required to enable a strong, globally competitive research and innovation system in Canada. Researchers, students and young people benefit from the grant funding which supports postsecondary university research and outreach activities at universities, museums, science centres, and community-based organizations.

#### d) Internal Services

NSERC and Social Sciences and Humanities Research Council (SSHRC) share internal services for general administration, human resources, finance, awards administration, information management and technology, program evaluation and audit services. This common administrative services model has proven highly efficient for the two federal granting agencies. In addition, NSERC has its own corporate services to address the Agency's distinct needs in terms of governance, policy, planning, statistics, performance measurement, communications and international relations. Internal Services provide support to the organization as whole in the form of operation and maintenance funds. They are necessary to support the delivery of programs and other corporate obligations and include activities that apply across the organization, rather than those that support a specific program.

## 2. Summary of Significant Accounting Policies

These financial statements have been prepared using the Government's accounting policies stated below, which are based on Canadian public sector accounting standards.

Significant accounting policies are as follows:

a) Parliamentary authorities

NSERC is financed by the Government through parliamentary authorities. Financial reporting of authorities provided to NSERC do not parallel financial reporting according to Canadian Public Sector Accounting Standards, since authorities are primarily based on cash flow requirements. Consequently, items recognized in the Statement of Financial Position and in the Statement of Operations and Net Financial Position are not necessarily the same as those provided through authorities from Parliament. Note 3 provides a reconciliation between the bases of reporting. The planned results amounts in the Statement of Operations and Net Financial Position are the amounts reported in the future-oriented statement of operations included with NSERC's *2013-2014 Report on Plans and Priorities*.

Liquidity risk is the risk that the NSERC will encounter difficulty in meeting its obligations associated with financial liabilities. NSERC's objective for managing liquidity risk is to manage operations and cash expenditures within the appropriation authorized by Parliament or allotment limits approved by the Treasury Board.

Each year, NSERC presents information on planned expenditures to Parliament through the tabling of Estimates publications. These estimates result in the introduction of supply bills (which, once passed into legislation, become appropriation acts) in accordance with the reporting cycle for government expenditures. NSERC exercises expenditure initiation processes such that unencumbered balances of budget allotments and appropriations are monitored and reported on a regular basis to help ensure sufficient authority remains for the entire period and appropriations are not exceeded.

Consistent with Section 32 of the *Financial Administration Act*, NSERC's policy to manage liquidity risk is that no contract or other arrangement providing for a payment shall be entered into with respect to any program for which there is an appropriation by Parliament or an item included in estimates then before the House of Commons to which the payment will be charged unless there is a sufficient unencumbered balance available out of the appropriation or item to discharge any debt that, under the contract or other arrangement, will be incurred during the fiscal year in which the contract or other arrangement is entered into.

NSERC's risk exposure and its objectives, policies and processes to manage and measure this risk did not change significantly from the prior year.

b) Net cash provided by Government of Canada

NSERC operates within the Consolidated Revenue Fund (CRF), which is administered by the Receiver General for Canada. All cash received by NSERC is deposited to the CRF, and all cash disbursements made by NSERC are paid from the CRF. The net cash provided by Government is the difference between all cash receipts and all cash disbursements, including transactions between departments of the Government.

c) Amounts due from the Consolidated Revenue Fund

Amounts due from the CRF are the result of timing differences at year-end between when a transaction affects authorities and when it is processed through the CRF. Amounts due from the CRF represent the net amount of cash that NSERC is entitled to draw from the CRF without further authorities to discharge its liabilities. This amount is not considered to be a financial instrument.

d) Revenues

Miscellaneous revenues are accounted for in the period in which the underlying transaction or event that gave rise to the revenue takes place.

Included in miscellaneous revenue are revenue that are spendable and non-spendable. Non-spendable revenue are not available to discharge NSERC's liabilities. While the Deputy Heads are expected to maintain accounting control, they have no authority regarding the disposition of non-spendable revenues. As a result, non-spendable revenues are considered to be earned on behalf of the government and are therefore presented as a reduction of the Agency's gross revenues.

e) Expenses

Expenses are recorded on the accrual basis.

Grants and scholarships are recognized in the year in which the entitlement of the recipient has been established, when the recipient has met the eligibility criteria, and the commitment has been approved.

Vacation pay and compensatory leave are accrued as the benefits are earned by employees under their respective terms of employment.

Services provided without charge by other government departments for accommodation, and employer contributions to the health and dental insurance plans are recorded as operating expenses at their estimated cost. These amounts are also presented as government funding.

f) Employee future benefits

(i) Pension benefits: Eligible employees participate in the public service pension plan (the Plan), a multiemployer pension plan administered by the Government. NSERC's contributions to the Plan are charged to expenses in the year incurred and represent NSERC's total obligation to the Plan. NSERC's responsibility with regard to the Plan is limited to its contributions. Actuarial surpluses or deficiencies are recognized in the financial statements of the Government, the Plan's sponsor.

(ii) Severance benefits: Employees entitled to severance benefits under labour contracts or conditions of employment earn these benefits as services necessary to earn them are rendered. The obligation relating to the benefits earned by employees is calculated using information derived from the results of the actuarially determined liability for employee severance benefits for the Government as a whole.

g) Accounts receivable

Accounts receivables are stated at the lower of cost and net recoverable value. A valuation allowance is recorded for receivables where recovery is considered uncertain.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. NSERC is not exposed to significant credit risk. Accounts receivable are due on demand. The majority of accounts receivable are due from other Government of Canada departments and agencies where there is minimal potential risk of loss. The maximum exposure NSERC has to credit risk is equal to the carrying value of its accounts receivables.

h) Contingent liabilities

Contingent liabilities are potential liabilities that may become actual liabilities when one or more future events occur or fail to occur. To the extent that the future event is likely to occur or fail to occur, and a reasonable estimate of the loss can be made, an estimated liability is accrued and an expense recorded. If the likelihood is not determinable or an amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements.

i) Tangible capital assets

All tangible capital assets and leasehold improvements having an initial cost of \$5,000 or more are recorded at their acquisition cost. NSERC does not capitalize intangibles.

Amortization of tangible capital assets is done on a straight-line basis over the estimated useful life of the asset as follows:

Asset class	Amortization period
Informatics equipment	3 years
Software (Purchased and in-house developed)	5 years
Other equipment	5 years
Furniture	7 years
Leasehold improvements	Lesser of the remaining term of lease or useful life of the improvement

Assets under construction are recorded in the applicable capital asset class in the year that they become available for use and are not amortized until they become available for use.

j) Measurement uncertainty

The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses reported in the financial statements. At the time of preparation of these statements, management believes the estimates and assumptions to be reasonable. The most significant items where estimates are used are the liability for employee future benefits and the useful life of tangible capital assets. Actual results could significantly differ from those estimated. Management’s estimates are reviewed periodically and, as adjustments become necessary, are recorded in the financial statements in the year in which they become known.

### 3. Parliamentary Authorities

NSERC receives its funding through annual parliamentary authorities. Items recognized in the Statement of Financial Position and in the Statement of Operations and Net Financial Position one year may be funded through parliamentary authorities in prior, current or future years. Accordingly, NSERC has a different net cost of operations for the year on a government funding basis than on an accrual accounting basis. The differences are reconciled in the following tables:

#### a) Reconciliation of net cost of operations to current year authorities used

	<u>2014</u>	<u>2013</u>
	(thousands of dollars)	
Net cost of operations before government funding and transfers	1,068,193	1,073,115
Adjustments for items affecting net cost of operations but not affecting authorities:		
Amortization of tangible capital assets	(682)	(905)
Gain on disposal of tangible capital assets	-	2
Common services provided without charge by other government departments	(6,811)	(6,913)
Decrease in vacation pay and compensatory leave	64	93
Decrease in employee future benefits	127	4,892
Refunds of prior years' expenditures	3,390	2,747
Other adjustments	-	1
Total items affecting net cost of operations but not affecting authorities	<u>1,064,281</u>	<u>1,073,032</u>
Adjustments for items not affecting net cost of operations but affecting authorities:		
Acquisitions of tangible capital assets	2,462	2,809
Proceeds from disposal of tangible capital asset	(1)	(2)
Increase (decrease) in prepaid expenses	<u>(65)</u>	<u>141</u>
Total items not affecting net cost of operations but affecting authorities	2,396	2,948
<b>Current year authorities used</b>	<u><u>1,066,677</u></u>	<u><u>1,075,980</u></u>

**b) Authorities provided and used**

	<u>2014</u>	<u>2013</u>
	(thousands of dollars)	
Authorities provided:		
Vote 80 - Grants	1,020,154	1,024,465
Less: Lapse	<u>(1,250)</u>	<u>(1,736)</u>
Grants expenditures	1,018,904	1,022,729
Vote 75 – Operating expenditures	44,836	50,424
Less: Operating lapse	(1,863)	(2,446)
Frozen allotment	<u>(306)</u>	<u>(129)</u>
Operating expenditures	42,667	47,849
Statutory contributions to employee benefit plans	5,106	5,402
<b>Current year authorities used</b>	<u><u>1,066,677</u></u>	<u><u>1,075,980</u></u>

**4. Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities are measured at cost, the majority of which are due within six months of year-end.

The following table presents details of NSERC's accounts payable and accrued liabilities:

	<u>2014</u>	<u>2013</u>
	(thousands of dollars)	
Accounts payable - Other government departments and agencies	724	703
Accounts payable - External parties	<u>1,820</u>	<u>2,187</u>
Total accounts payable	2,544	2,890
Accrued liabilities	968	882
<b>Total accounts payable and accrued liabilities</b>	<u><u>3,512</u></u>	<u><u>3,772</u></u>

## 5. Employee Future Benefits

### a) Pension benefits

NSERC's employees participate in the Plan, which is sponsored and administered by the Government. Pension benefits accrue up to a maximum period of 35 years at a rate of two per cent per year of pensionable service, times the average of the best five consecutive years of earnings. The benefits are integrated with Canada/Québec Pension Plans benefits and are indexed to inflation.

Both the employees and NSERC contribute to the cost of the Plan. Due to the amendment of the *Public Service Superannuation Act* following the implementation of provisions related to Canada's Economic Action Plan 2012 (EAP2012), employee contributors have been divided into two groups – Group 1 relates to existing plan members as of December 31, 2012 and Group 2 relates to members joining the Plan as of January 1, 2013. Each group has a distinct contribution rate.

The 2013-2014 expense amounts to \$3,590,414 (\$3,857,228 in 2012-2013). For Group 1 members, the expense represents approximately 1.6 times (1.7 times in 2012-2013) the employee contributions and, for Group 2 members, approximately 1.5 times (1.7 times in 2012-2013) the employee contributions.

NSERC's responsibility with regard to the Plan is limited to its contributions. Actuarial surpluses or deficiencies are recognized in the financial statements of the Government, the Plan's sponsor.

### b) Severance benefits

NSERC provides severance benefits to its employees based on eligibility, years of service and salary at termination of employment. These severance benefits are not pre-funded. Benefits will be paid from future authorities.

As part of changes in terms and conditions of employment with certain employee groups, and changes to conditions of employment for executives and certain non-represented employees, the accumulation of severance benefits under the employee severance pay program ceased for these employees commencing in 2012. Employees subject to these changes have been given the option to be immediately paid the full or partial value of benefits earned to date or collect the full or remaining value of benefits on termination from the public service. These changes have been reflected in the calculation of the outstanding severance benefit obligation. Information about the severance benefits, measured as at March 31, is as follows:

	2014	2013
	(thousands of dollars)	
<b>Accrued benefit obligation - Beginning of year</b>	1,495	6,387
Expense (gain) for the year	98	(646)
Benefits paid during the year	(225)	(4,246)
<b>Accrued benefit obligation - End of year</b>	<u>1,368</u>	<u>1,495</u>

## 6. Accounts Receivable

The following table presents details of NSERC's accounts receivable balances:

	<u>2014</u>	<u>2013</u>
	(thousands of dollars)	
Receivables - Other government departments and agencies	867	921
Receivables - External parties	487	309
Subtotal	<u>1,354</u>	<u>1,230</u>
Allowance for doubtful accounts on receivables from external parties	(24)	(15)
<b>Net accounts receivable</b>	<u><u>1,330</u></u>	<u><u>1,215</u></u>

**7. Tangible Capital Assets**  
(thousands of dollars)

Capital asset class	Cost				Accumulated amortization			Net book value		
	Opening balance	Acquisitions	Disposals and write-offs	Closing balance	Opening balance	Amortization	Disposals and write-offs	Closing balance	2014	2013
Informatics	5,926	379	(559)	5,746	5,421	329	(558)	5,192	554	505
Software	6,353	27	-	6,380	6,083	98	-	6,181	199	270
Other equipment	341	-	-	341	223	27	-	250	91	118
Furniture	4,115	-	(15)	4,100	3,655	217	(15)	3,857	243	460
Leasehold improvements	3,752	31	-	3,783	3,720	11	-	3,731	52	32
Assets under construction	2,964	2,025	-	4,989	-	-	-	-	4,989	2,964
<b>Total</b>	<b>23,451</b>	<b>2,462</b>	<b>(574)</b>	<b>25,339</b>	<b>19,102</b>	<b>682</b>	<b>(573)</b>	<b>19,211</b>	<b>6,128</b>	<b>4,349</b>

## 8. Contingent Liability

NSERC, along with two of its employees, were served with a statement of claim for breach of contract and defamation, for a potential total claim of \$33.5 million by a researcher whose grants had been terminated following university findings of misconduct and findings by NSERC that the researcher had violated its policies. NSERC was also served with a related claim by a past NSERC Council member, who is named in the first statement of claim, for indemnification of any damages and related costs which may be awarded in relation to the first claim.

Given the relatively early stage of the proceedings, the likelihood of an adverse outcome cannot be assessed at present. No liability has been recognized in these financial statements in relation to these contingencies.

## 9. Contractual Obligations

Payments of grants and scholarships extending into future years are subject to the provision of funds by Parliament. As of March 31, 2014, the commitments for future years' awards are payable as follows:

	(thousands of dollars)
2014-15	878,733
2015-16	641,338
2016-17	418,428
2017-18	244,271
2018-19 and subsequent years	137,331
<b>Total</b>	<b>2,320,101</b>

In addition, the nature of NSERC's operating activities can result in some large multiyear contracts and obligations whereby NSERC will be committed to make future payments when the services or goods are rendered. Significant contractual obligations that can be reasonably estimated are summarized as follows:

	(thousands of dollars)
2014-15	190
2015-16	146
2016-17	52
<b>Total</b>	<b>388</b>

## 10. Related Party Transactions

NSERC is related as a result of common ownership to all government departments, agencies and Crown corporations. NSERC enters into transactions with these entities in the normal course of business and on normal trade terms. During the year, NSERC received common services that were obtained without charge by other government departments as disclosed below.

### a) Common services provided without charge by other government departments

During the year, NSERC received services without charge from certain common service organizations related to accommodations, and the employer's contribution to the health and dental insurance plans. These services provided without charge have been recorded in NSERC's Statement of Operations and Net Financial Position as follows:

	2014	2013
	(thousands of dollars)	
Accommodations	4,107	4,122
Employer's contribution to the health and dental insurance plans	2,704	2,700
Audit Services	-	91
<b>Total</b>	<u>6,811</u>	<u>6,913</u>

The Government has centralized some of its administrative activities for efficiency, cost-effectiveness purposes and economic delivery of programs to the public. As a result, the Government uses central agencies and common service organizations so that one department performs services for all other departments and agencies without charge. The costs of these services, such as the payroll and cheque issuance services provided by Public Works and Government Services Canada are not included in NSERC's Statement of Operations and Net Financial Position.

### b) Administration of programs on behalf of other government departments

NSERC administers funds received from other government departments and agencies to issue grants, scholarships and related payments on their behalf. During the year, NSERC administered \$16,399,644 (\$12,626,771 in 2012-2013) in funds for grants and scholarships. These expenses are reflected in the financial statements of the departments or agencies that provided the funds and are not recorded in these financial statements.

NSERC also recovers administrative fees in some circumstances where a significant administrative burden is incurred by NSERC for the administration of certain funds on behalf of other government departments and agencies. These amounted to \$535,170 during the year (\$401,742 in 2012-2013) and were netted against NSERC's operating expenses.

## 11. Segmented Information

Presentation by segment is based on NSERC's program alignment architecture. The presentation by segment is based on the same accounting policies as described in the Summary of significant accounting policies in Note 2. The following table presents the expenses incurred for the main programs, by major object of expenses. The segment results for the period are as follows:

(thousands of dollars)

	<b>Discovery</b>	<b>Innovation</b>	<b>People</b>	<b>Internal Services</b>	<b>2014 Total</b>	<b>2013 Total</b>
<b>Transfer payments</b>						
Grants & scholarships	397,888	354,418	263,289	-	1,015,595	1,020,141
<b>Operating expenses</b>
